

IDA 2013

The Twelfth International Symposium
on Intelligent Data Analysis

17-19 October 2013, London

IMPORTANT DATES

Deadline for submissions: 6 May, 2013
Author notification: 8 July, 2013
Camera-ready papers : 5 Aug, 2013

KEYNOTE SPEAKER

Professor David Hand, Imperial College, London
The **FRONTIER PRIZE** (1000 Euros) will be awarded to the most visionary contribution.

The A-ranked IDA symposium (ERA), supports papers that go beyond established technology and offer genuinely novel and “game-changing” ideas. IDA 2013 seeks “first look” papers that might elsewhere be considered preliminary but nevertheless contain potentially high impact research.

CALL FOR PAPERS: IDA solicits papers on all aspects of intelligent data analysis. IDA 2013 particularly encourages papers about:

- Novel applications of IDA techniques to complex systems
- Novel modes of data acquisition and/or fusion
- Robustness and scalability issues of intelligent data analysis techniques
- Visualization and dissemination of results

The proceedings of IDA 2013 will appear in Springer's Lecture Notes in Computer Science (LNCS) series.
